ChatGPT Prompt

Generate a 30-day social media posting schedule for TikTok, Instagram (Post), Instagram (Reels), and YouTube starting from [start date]. Use content labeled 1(a) to 10(a) for Instagram (Post) and 1(b) to 10(b) for TikTok, Instagram (Reels), and YouTube. Ensure:

- No duplicates within the same channel.
- The same content (e.g., 1(b)) does not post on more than one channel on the same day.
- Align [specific post] (e.g., 6(a) and 6(b)) to post on all channels on [specific date, e.g., Thanksgiving].
- Scramble the sequence to distribute posts evenly and avoid patterns.
